Applications

Production - dynamartapp (space: Dynaspace)

Updated Apr 5th, 2023

Add-on:

Postgres - version 13.7 - Leader (postgresql-polished-48400) and Follower (postgresql-fitted-54557)

Heroku Connect - (herokuconnect-curved-26194) - link to Production (datawarehouse@dynatrace.com - 00D0000000hdRBEAY)

Heroku Connect - (herokuconnect-encircled-35070) - link to DPS Internal Sandbox (datawarehouse@dynatrace.com.dps - 00D7f000000ADgcEAG)

Cron To Go Scheduler (crontogo-horizontal-27038) - Titanium / 150 concurrent jobs / 7 days execution history

Paper Trail (papertrail-objective-90991) - Fredrick / 6 GB per day / Search 30 Days / Archive duration 365 Days

Postgres Specification:

RAM: 122GB

Storage Capacity: 1.5 TB

Connection Limit: 500

Rollback: 7 days

Postgres Extension:

name	version	schema	description
dblink	1.2	public	connect to other PostgreSQL databases from within a database
hstore	1.7	public	data type for storing sets of (key, value) pairs
insert_username	1	heroku_ext	functions for tracking who changed a table
moddatetime	1	heroku_ext	functions for tracking last modification time
pg_partman	4.6.2	heroku_ext	Extension to manage partitioned tables by time or ID
pg_stat_statements	1.8	public	track execution statistics of all SQL statements executed
pgcrypto	1.3	heroku_ext	cryptographic functions
plpgsql	1	pg_catalog	PL/pgSQL procedural language
postgres_fdw	1	heroku_ext	foreign-data wrapper for remote PostgreSQL servers
tablefunc	1	public	functions that manipulate whole tables, including crosstab
uuid-ossp	1.1	heroku_ext	generate universally unique identifiers (UUIDs)

Staging or Hardening- dynamartapp-stg (space: Dynaspace)

Updated Sep 11th, 2022

Add-on:

Postgres - version 14.5 - Leader (postgresql-clean-00264)

Heroku Connect (herokuconnect-clear-11023) - Link to STG (datawarehouse@dynatrace.com.proj - 00D7h0000004idw)

Cron To Go Scheduler (crontogo-horizontal-27038) - Gold / 50 concurrent jobs / 7 days execution history

Postgres Extension:

name	version	schema	description
dblink	1.2	public	connect to other PostgreSQL databases from within a database
hstore	1.6	public	data type for storing sets of (key, value) pairs
insert_username	1	heroku_ext	functions for tracking who changed a table

moddatetime	1	heroku_ext	functions for tracking last modification time
pg_partman	4.4.1	public	Extension to manage partitioned tables by time or ID
pg_stat_statements	1.9	public	track execution statistics of all SQL statements executed
pgcrypto	1.3	public	cryptographic functions
plpgsql	1	pg_catalog	PL/pgSQL procedural language
postgres_fdw	1	pg_catalog	foreign-data wrapper for remote PostgreSQL servers
tablefunc	1.1	public	functions that manipulate whole tables, including crosstab
uuid-oss	1.1	heroku_ext	generate universally unique identifiers (UUIDs)

Development - dynamartapp-dev (space: Dynaspace)

Updated Sep 2nd, 2022

Add-on:

Postgres - version 14.4 - Leader (postgresql-graceful-89609)

Heroku Connect (herokuconnect-lively-11132) - Link to QA (datawarehouse@dynatrace.com.qa - 00D6w0000004d0WEAQ)

Cron To Go Scheduler (crontogo-polished-21785) - Silver / 15 concurrent jobs / 3 days execution history

Postgres Extension:

name	version	schema	description
dblink	1.2	heroku_ext	connect to other PostgreSQL databases from within a database
hstore	1.8	heroku_ext	data type for storing sets of (key, value) pairs
insert_username	1	heroku_ext	functions for tracking who changed a table
moddatetime	1	heroku_ext	functions for tracking last modification time
pg_partman	4.4.1	public	Extension to manage partitioned tables by time or ID
pg_stat_statements	1.9	heroku_ext	track planning and execution statistics of all SQL statements executed
pgcrypto	1.3	heroku_ext	cryptographic functions
plpgsql	1	pg_catalog	PL/pgSQL procedural language
postgres_fdw	1.1	heroku_ext	foreign-data wrapper for remote PostgreSQL servers
tablefunc	1	heroku_ext	functions that manipulate whole tables, including crosstab
uuid-oss	1.1	heroku_ext	generate universally unique identifiers (UUIDs)

Secure - dynamartapp-secure (space: Dynaspace)

Updated Sep 2nd, 2022

Add-on:

Postgres - version 14.5 - Leader (postgresql-transparent-82217)
Heroku Connect (herokuconnect-animate-30976) - Link to DEV (datawarehouse@dynatrace.com.dev - 00D6t0000004clFEAQ)

Postgres Extension:

name	version	schema	description
dblink	1.2	heroku_ext	connect to other PostgreSQL databases from within a database
hstore	1.8	heroku_ext	data type for storing sets of (key, value) pairs
insert_username	1	heroku_ext	functions for tracking who changed a table
moddatetime	1	heroku_ext	functions for tracking last modification time
pg_partman	4.7.0	public	Extension to manage partitioned tables by time or ID
pg_stat_statements	1.9	heroku_ext	track planning and execution statistics of all SQL statements executed
pgcrypto	1.3	heroku_ext	cryptographic functions
plpgsql	1	pg_catalog	PL/pgSQL procedural language
postgres_fdw	1.1	heroku_ext	foreign-data wrapper for remote PostgreSQL servers
tablefunc	1	heroku_ext	functions that manipulate whole tables, including crosstab
uuid-oss	1.1	heroku_ext	generate universally unique identifiers (UUIDs)

Space

Trusted IP Address:

⚠ When a new private space is created, submit a ticket to Heroku Support to enable trusted IPs.

To list current trusted IP ranges from a Private Space :

```
1 heroku trusted-ips -s dynaspace
```

To add a trusted IP address to a Private Space:

```
1 heroku trusted-ips:add 192.0.2.128/26 -s dynaspace
```

To remove a trusted IP address from a Private Space:

```
1 heroku trusted-ips:remove 192.0.2.128/26 -s dynaspace
```

To calculate CIDR to IP range use [IP Address Guide](#).
